**PROFESSIONAL SUMMARY**

Mr. Brent joined BEE Consulting, LLC in January of 2022 as a Consultant, Sustainability. In this role, he provides guidance and coordination for teams to meet their green design goals. He helps our clients to certify their projects with sustainable building programs. Mr. Brent has assisted with programs such as ENERGY STAR Multifamily, National Green Building Standard, LEED, Green Globes, and Built Green.

Prior to coming to BEE, Mr. Brent interned as an Energy Analyst at Moffet Energy Modeling in Tualatin Oregon. During his time there, Mr. Brent modeled multi-family projects under the Oregon MEP Code using energy modeling software packages. He also reviewed and interpreted architectural drawings, engineering schedules, and HVAC Designs, as well as collaborating with team members on efficiency recommendations and process improvements.
